2017 Annual Report to the School Community

School Name: Mount Waverley Primary School

School Number: 3432

Please note: Completed reports are to be uploaded to the <u>Strategic Planning Online Tool (SPOT)</u> for review and endorsement by the principal and school council president. Once the attestations are completed in SPOT, this page will be replaced and the report available for download.

About Our School

School Context

Mount Waverley Primary School is a large school of approximately 810 students situated in the south eastern suburbs and has an outstanding reputation in the wider community. The school has 60 equivalent full time staff, including the Principal, 2 Assistant Principals, 46 teachers and 6 Educational Support staff (integration aides), 4 Educational Support staff in the General Office and 2 School Nurses.

Mount Waverley has a strong commitment to continuous improvement and the pursuit of academic excellence, with students consistently achieving outstanding academic results that exceed National and State benchmarks in all areas. The school has created a quality Instructional Model which provides a differentiated curriculum that promotes individual learning and focuses on the development of independent learners. Our facilities create innovative and flexible learning spaces where students undertake their learning in a stimulating and friendly environment that facilitates the extensive use of Digital Technology across all areas of the curriculum.

Students are supported to develop social, emotional and interpersonal skills through a range of values based programs. All students are encouraged to undertake leadership roles to assist in the development of self-esteem and confidence. Our association with Quality Learning Australia has facilitated the implementation of Student Voice strategies across all levels.

Mount Waverley encourages strong links between home and school and invites community participation at many levels. A dedicated School Council and Parent Group support all aspects of the school's operation and provide the basis for a strong community partnership. The school community has a high socio economic profile and a high proportion of students with English as a second language. The school community actively supports the development of school resources and programs to ensure the best possible outcomes for students while also supporting the school's recently developed Vision.

Framework for Improving Student Outcomes (FISO)

Excellence in Teaching and Learning - Building Practice Excellence

Mount Waverley Primary School collaborated with four other local schools to develop a whole school agreed instructional model. The MWPS Instructional Model can be found on our website and is now embedded into daily teaching practice.

We have a whole school professional learning plan that supports our school's identified FISO improvement strategies, which will be developed, implemented and evaluated. Student achievement data strongly underpins this plan.

Our professional learning strategies have well-articulated purposes that are focused on student learning, engagement and wellbeing and are derived from the analysis of student data.

The school's Strategic Plan supports the achievement of the agreed FISO priority and is seen holistically alongside the professional learning of staff. The cycle of continuous improvement ensures that the Instructional Model and Strategic Plan are regularly monitored and reviewed.

We are currently investigating the opportunity to join a new FISO group focussing on Writing.

Achievement

Mount Waverley teachers have been undertaking professional learning with educational consultants and colleagues in the areas of Literacy, Numeracy, ICT, Student Wellbeing, Student Voice and the MWPS Instructional Model. This has provided teachers with the opportunity to further enhance classroom teaching to cater for individual learning styles and abilities and to enable teaching to be more explicit. Michael Fullan's New Pedagogies for Deep Learning has been implemented throughout the school and supports the school's Purpose Statement, Vision Statement, Philosophy of Teaching and Learning, Year 6 Graduate Profile and Values which were developed in 2015 with the support from Quality Learning Australia who engaged all stakeholders in our community.

The introduction of PAT Maths has further strengthened our assessment program and a new whole school assessment schedule for Literacy and Numeracy has been developed including the use of Essential Assessments. We are also committed to fully implementing open ended Numeracy learning tasks and strategies in line with the Victorian Curriculum to build upon the explicit teaching required at all levels. A focus for 2018 will be challenging our students already achieving in the top 2 bands of NAPLAN.

In Literacy, a whole school assessment schedule has been established using CARS, Fountas and Pinnell, and PAT Reading. The school has adopted the Daily Five to ensure all reading approaches are run daily. The school is reviewing the writing program and has engaged the services of Andrell Education to provide PL on VCOP. As part of the 2018 Professional Practice days a team of teachers will be reviewing our spelling program through visiting other schools. The teachers ensure that a grammar focus is undertaken in our writing sessions and whole school writing moderation occurs each term.

Mathletics, Mangahigh Literacy Planet and Reading Eggs programs are used extensively across the school to further support and enhance Literacy and Numeracy programs while Brain Pop engages with general learning tasks.

ICT is integrated across the curriculum where skills are developed within the curriculum and not taught in isolation. There is a strong emphasis on the use of Office 365 and technology such as blogs and wikis which allow students to access, create and contribute to website content and web-enabled events. Students also work with mainstream software including: Publisher, Word, Comic Life, Photostory and concept mapping software. These applications are used to support the development of learning outcomes across the

curriculum and to engage the students in collaborative, cooperative and problem solving activities. We have consolidated the 1:1 computers program in Years 4 to Year 6 with a view to expanding an IPad program to the junior school in 2019.

Engagement

Mount Waverley students display comparable attendance data with the median for Victorian government schools.

Data obtained from the Student Attitude to School Survey indicates that both our Year 5 & 6 students are engaged in their learning and have a positive attitude to their schooling. Senior students are involved in a robotics program and the recent purchase of 3D printers will further add to the value of this program. The Coding Club also deepens the school's commitment to STEM. A focus for Year 6 is a News Ministers Program which involves the students in green screen work and media studies.

The school implements a number of values based programs that promote resilience and support student wellbeing. These include: Connect to School program, Circle Time activities, Life Habits, Respectful Relationships, Games Factory, student focus groups, buddies, Reach Rookies and a range of student leadership programs which increase the development of self-esteem and independence. The school offers a range of extra curricula activities to enrich the school experience, such as Instrumental Music, Peer Mediation and Enrichment Programs.

The Student Code of Conduct is actively promoted across the school and all teachers develop a Code of Cooperation for their classrooms. Students are encouraged to exhibit the school values, with positive behavior recognized through Citizenship, Excellence and classroom awards. Student achievements are acknowledged at assemblies and in the school newsletter. Life Habits and School Values are reinforced at assemblies.

The school offers a wide range of specialist programs including: EAL, Reading Recovery, Extension Maths, Visual Arts, Performing Arts, Physical Education, Sport Education, LOTE Japanese, Library and ICT.

The school is a fully accredited 5 Star AussieVic Sustainable School where each level is responsible for a number of programs and sustainability education is a focus of our school.

Wellbeing

Mount Waverley has a strong program in place to support transition at various levels. Consideration is given to a seamless transition between year levels across the school through providing two handover sessions with every teacher at the end of the year.

The Prep Transition Program includes a six month induction program for new Preps. A 'Prep Buddy Program' is also in place to support students in their first two years at school.

We create Individual Learning Plans with specific goals and targets to personalize student learning which support students moving through year levels, especially those with special needs or disabilities. Student progress is tracked across each level.

Year 6 students undertake a number of special programs and activities designed to build independence and confidence prior to entering secondary school. Year 6 students visit local colleges and secondary students visit our school to share information and experiences with our students. Information is also shared with colleges regarding student achievement data.

In 2015 all stakeholders were engaged in developing and commencing the implementation of a very comprehensive Student Engagement, Wellbeing and Inclusion policy and the school meets all Child Safe requirements. This policy is due for review in 2018. A sequenced restorative practice process is used by teachers to ensure positive student behavior in accordance with the classroom Code of Cooperation created each year by the students and the teacher.

We work closely with our Department support staff to ensure students identified with special needs, as well as their families receive the support required as needs arise.

For more detailed information regarding our school please visit our website at www.mountwaverleyps.vic.edu.au

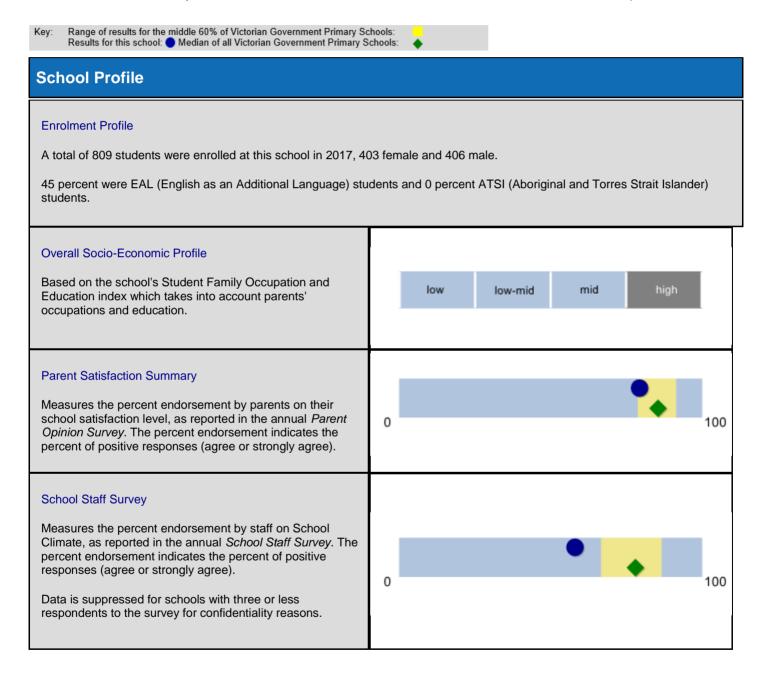

The Government School Performance Summary provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian Government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes.

Members of the community can contact the school for an accessible version of these data tables if required.

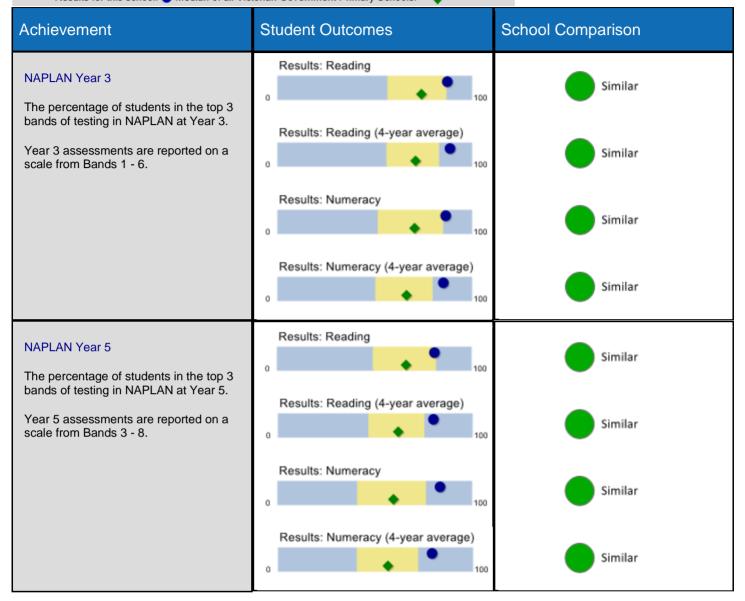

Achievement	Student Outcomes	School Comparison
Teacher Judgement of student achievement Percentage of students in Years Prep to 6 working at or above age expected standards in: • English • Mathematics For further details refer to How to read the Annual Report.	Results: English Results: Mathematics	Similar

Achievement	Student Outcomes	School Comparison
NAPLAN Learning Gain Year 3 - Year 5 Learning gain of students from Year 3 to Year 5 in the following domains: Reading, Numeracy, Writing, Spelling and Grammar and Punctuation. NAPLAN learning gain is determined by comparing a student's current year result to the results of all 'similar' Victorian students (i.e. students in all sectors in the same year level who had the same score two years prior). If the current year result is in the Top 25 percent, their gain level is categorised as 'High'. Middle 50 percent, is 'Medium'. Bottom 25 percent, is 'Low'.	Reading	NAPLAN Learning Gain does not require a School Comparison.

Engagement	Student Outcomes	School Comparison
Average Number of Student Absence Days Average days absent per full time equivalent (FTE) student per year. Common reasons for non-attendance include illness and extended family holidays. Absence from school can impact on students' learning School Comparison A school comparison rating of 'Higher' indicates this school records 'less' absences than expected, given the background characteristics of students. A rating of 'Lower' indicates this school records 'more' absences than expected.	Few absences <> Many absences Results: 2014 - 2017 (4-year average) 50 Few absences <> Many absences	Similar
Average 2017 attendance rate by year level:	Prep Yr1 Yr2 Yr3 Yr4 Yr5 Yr6	
	94 % 93 % 93 % 94 % 94 % 94 % 92 %	

Wellbeing	Student Outcomes	School Comparison
Students Attitudes to School - Sense of Connectedness Measures the percent endorsement on Sense of Connectedness factor, as reported in the Attitudes to School Survey completed annually by Victorian Government school students in Years 4 to 12. The percent endorsement indicates the percent of positive responses (agree or strongly agree).	Results: 2017	Lower
Students Attitudes to School - Management of Bullying Measures the percent endorsement on Management of Bullying factor, as reported in the Attitudes to School Survey completed annually by Victorian Government school students in Years 4 to 12. The percent endorsement indicates the percent of positive responses (agree or strongly agree).	Results: 2017	Similar

How to read the Annual Report

What does the About Our School section refer to?

The About Our School page provides a brief background on the school, an outline of the school's performance over the year and plans for the future.

The 'School Context' describes the school's vision, values and purpose. Details include the school's geographic location, size and structure, social characteristics, enrolment characteristics and special programs.

The 'Framework for Improving Student Outcomes (FISO)' section includes the improvement initiatives the school has selected and the progress they have made towards achieving them.

What does the *Performance Summary* section of this report refer to?

The Performance Summary reports on data in three key areas:

Achievement

- student achievements in:
 - English and Mathematics for National Literacy and Numeracy tests (NAPLAN)
 - English and Mathematics for teacher judgements against the curriculum
 - all subjects for Victorian Certificate of Education (VCE) examinations (secondary schools)

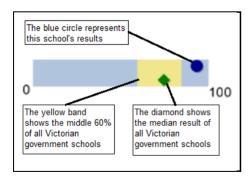

Engagement

- student attendance and engagement at school
 - how many students leaving school go on to further studies or full-time work (secondary, P-12 and specialist schools)

Wellbeing

- Attitudes to School Survey (ATOSS)
 - Sense of connectedness
 - Management of Bullying

Results are displayed for the latest year, as well as the average of the last four years (where available).

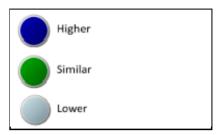

What does School Comparison refer to?

The School Comparison is a way of comparing this school's performance to similar schools in Victoria.

The comparison measure takes into account the school's academic intake, the socio-economic background of students, the number of Aboriginal students, the number of non-English speaking and refugee students, the number of students with a disability and the size and location of the school.

The School Comparison shows that most schools are achieving results that are 'Similar' to other schools with alike student backgrounds and characteristics. Some schools are doing exceptionally well and have 'Higher' performance. Some schools have 'Lower' performance than expected and receive targeted support to ensure that there is improvement.

More information on School Comparison performance measures can be found at:

http://www.education.vic.gov.au/school/parents/involve/Pages/performance.aspx

What does 'Data not available' mean?

Some schools have too few students enrolled to provide data. There may be no students enrolled in some year levels so school comparisons are not possible.

New schools have only the latest year of data and no comparative data from previous years.

The Department also recognises unique circumstances in Specialist, Select Entry, English Language and Community Schools where school-to-school comparisons are not appropriate.

What is the Victorian Curriculum?

The Victorian Curriculum F–10 sets out what every student should learn during their first 11 years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'.

'Levels A to D' may be used for students with a disability or students who may have additional learning needs.

'Levels A to D' are not associated with any set age or year level that links chronological age to cognitive progress (i.e. there is no age expected standard of achievement for 'Levels A to D').

- (1) The Equity funding reported above is a subset of overall revenue reported by the school
- (2) Student Resource Package Expenditure figures are as of 05 March 2018 and are subject to change during the reconciliation process.
- (3) Misc Expenses may include bank charges, health and personal development, administration charges, camp/excursion costs and taxation charges.
- (4) Salaries and Allowances refers to school-level payroll.

Financial performance and position commentary

The school has continued to operate on a sound financial basis in 2017. The school community is supportive of the payment of Essential Student Items component of the school account however, voluntary contributions are continuing to decline. Stable student enrolment numbers and the implementation of an effective workforce plan further support the schools sound

Mount Waverley Primary School

financial position. Careful monitoring of Budget expenditure and making adjustments as required along with regular Finance Committee meetings will ensure that the school is able to meet its financial commitments.

All funds received from the Department, or raised by the school, have been expended, or committed to subsequent years, to support the achievement of educational outcomes and other operational needs of the school, consistent with Department policies, School Council approvals and the intent/purposes for which funding was provided or raised.
